

FGFOA MENTORING PROGRAM INTEREST

In the words of the "HARVARD REVIEW":

"Everyone who makes it has a MENTOR"

Highly successful people hardly ever make it on their own. They succeed because they enlist the help of the experienced people who can lead them and guide them every step of the way-people to whom they can turn for counsel, for motivation, for key techniques and strategies that minimize risk and maximize success...

The FGFOA Board of Directors is developing a Mentoring program. Mentoring has been identified as an important influence in professional development. Benefits of mentoring include increased commitment to the organization, and knowledge sharing. This is especially true in light of the baby boomer generation of retirees in addition to today's current economic climate with early retirement buyouts. The Board is focused on knowledge transfer and the development of future leaders.

Mentors will be Past Presidents and past and current Board members. There will be a formal application process for the Mentoring Program to be sent out in June 2010. Space in the program will be limited. There will be an effort to match you up with mentors that best suit your objectives.

If you are interested in participating in the mentoring program, please complete the information below and you will be sent an application.
