AGENDA

8:30 AM

Leveraging Technology to Increase Efficiency & Enhance Internal Controls

SPEAKER: Andrew Laflin, CPA, Chief Executive Officer, Aclarian

In today's fast-paced business environment among local governments of varying size and complexity, modern Enterprise Resource Planning (ERP) systems are more than just back-office tools — they are strategic assets that drive efficiency, transparency, and control across government organizations. This session will explore how local governments can leverage the latest advancements in ERP technology to streamline operations, improve decision-making, and strengthen internal controls.

Attendees will gain insights into real-world use cases and emerging features — such as AI-driven analytics, process automation, and cloud-based integration — that help reduce risk and enhance compliance. Whether you're planning an upgrade or seeking to optimize your current ERP system, this session will provide practical guidance to unlock its full potential.

9:45 AM

From Projects to Depreciable Assets: Mastering Projects & Grants, Transactions, and Asset Conversion in Modern ERP Systems

SPEAKER: Andrew Laflin, CPA, Chief Executive Officer, Aclarian

This training equips local government staff with practical knowledge on setting up projects and grants, recording financial transactions, and managing the lifecycle from expenditure to capital asset conversion — all within a modern ERP environment. Participants will gain insight into best practices, compliance considerations, and efficient workflows to ensure accurate and transparent financial reporting.
