

IRS System Changeover

INTERNAL REVENUE SERVICE FIRE SYSTEM RETIREMENT APPROACHES

Beginning January 2027, the Internal Revenue Service's Information Returns Intake System, or IRIS, will be the only IRS electronic filing system for information returns, including current-year returns, prior-year returns and corrections.

FIRE System users should make sure they are ready to file through the IRIS.

Visit **IRS.gov/iris** to learn about IRIS and complete an IRIS Application for Transmitter Control Code. A FIRE TCC does not eliminate the need to complete the IRIS application process to file through IRIS.

Three FIRE System deadlines are approaching:

- November 1, 2026: Was the last day to file test information returns through the FIRE Trading Partner Test System.
- November 9, 2026: Last day to make changes to Information Returns (IR) Applications for Transmitter Control Codes (TCCs). After this date, applications will become read-only and be retained for historical reference.
- November 19, 2026, at 3 p.m. ET: Last day to file information returns through the FIRE system.

Take action now: confirm your organization is prepared to use IRIS and complete any remaining transition steps well before the FIRE System deadlines.

If you are not a member of FGFOA, you can **CLICK HERE** to apply.

FGFOA staff will email you with login instructions within 2-3 business days.
